DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:
 - a. Species A: Film bonded to the outer surface (like claims 1-14)
 - b. Species B: Fabric bonded to the outer surface (like claims 15-22)
2. The species are independent or distinct because they have different modes of operation and different features.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

3. During a telephone conversation with Evelyn M. Sommer on 5/23/07 a provisional election was made without traverse to prosecute the invention of species A, claims 1-14. Affirmation of this election must be made by applicant in replying to this Office action. Claims 15-22 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. This application is in condition for allowance except for the presence of claims 15-22 directed to species B non-elected without traverse. Accordingly, **claims 15-22 have been cancelled.**

Allowable Subject Matter

6. **Claims 1-14 are allowed.**

7. The following is an examiner's statement of reasons for allowance: the prior art of record all failed to show either alone and/or in combination a cryogenic fuel tank with

foam assembly and first solid film directly bonded to the outer surface to provide a uniform outer bonding surface with semi-rigid thermal protection system assembly bonded to said uniform outer bonding surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
